

Mid-Level Landscape Designer

EPS GROUP, INC PLANNING / LANDSCAPE ARCHITECTURE DEPARTMENT is seeking a talented, creative and technical individual with 5-10 years of experience to become a full-time employee within their landscape architectural team. The planning / landscape architectural department has a collaborative, energetic environment that focus on Residential Communities and Large Scale Developments, Education, Medical / Healthcare, Campus Design, Parks, Streetscapes, and Resort markets.

Overview of Position:

- Work with a multi-disciplinary team on a broad range of project types.
- Strong leadership, design, communication, organization, and graphic skills and enjoy working in a fast-paced, collaborative environment.
- Responsibilities include research, planning, design, graphic production and drafting. A combination of landscape architecture and planning experience a plus.
- Candidates will be required to transition between multiple aspects of a project from concept to construction drawings involving but not limited to planting, hardscape, irrigation coordination, construction detailing, construction document package development, construction administration, and coordination with other disciplines.

Candidates should be proficient in planning and landscape architectural design and demonstrate a high degree of the following skills:

- Demonstrated skills in design and production, construction documents and detailing, creativity and communication
- Proficiency in AutoCAD 2016
- Generate high quality graphics using Adobe Creative Suite & Sketchup
- Possess strong communication and time management skills
- Understanding of construction documentation including layout, grading and site detailing
- Bachelor's Degree in Landscape Architecture or Planning or equivalent work experience

EPS Group, Inc. offers a competitive salary and wide range of benefits.

Qualified applicants please submit cover letter, resume and portfolio or work samples in PDF format to careers@epsgroupinc.com for consideration.
