

TODD+ASSOCIATES

CRITICAL THINKING / CREATIVE DESIGN

Project Manager, Landscape Architecture

At Todd & Associates, we believe that even the biggest dreams can come true. As innovators and designers, we take risks, we embrace change, and we work collectively toward a common goal of excellence. It is because of our penchant for excellence that we continuously look for the right people to grow our team! [#TAICareer](#)
[#Landscapearchitecture](#)

We are adding a Landscape Architect to our team who is familiar with planning and developing designs for high-density/mixed use residential projects, senior living campuses and worship communities. The ideal candidate will be responsible for the successful collaboration with the project team and the overall execution of landscape architecture projects.

Minimum Requirements:

- Registered Landscape Architect
- 7+ years of project management experience.
- Knowledge of southwest plant materials, irrigation design, and construction detailing.
- Experienced with AutoCAD; capable user of Revit preferred.
- Great communication skills required.
- A team player!

If this aligns with your experience, please email your resume today to careers@toddassoc.com.
