COLWELL SHELOR LANDSCAPE ARCHITECTURE, an award winning urban design and landscape architecture firm is seeking talented individuals to become an integral part of our growing team.

The office is a fast-paced, collaborative environment that encourages design excellence and innovation. We strive to create highly performing landscapes that are ecologically sound and promote social engagement. Commissions include a diversity of high quality urban/downtown plazas, institutional, historic, parks and recreation, residential and master planning projects. The firm offers a team-oriented, collaborative, multidisciplinary working environment, competitive compensation, and potential for significant growth within the organization. Our objective is to involve our staff in all aspects of the design process from project kick-off through construction administration, while providing mentoring on a regular basis to support professional development.

Candidates shall demonstrate an appropriate level of competency in all areas of design, the ability to multi-task and collaborate well with others, with a working knowledge of landscape architecture projects from project kick-off through planning, design, regulatory permitting, bid assistance, construction documents and construction administration.

The position requires:
• A collaborative and positive work ethic.
• Intrinsically motivated individual with critical thinking aptitude with a willingness to learn and drive to grow professionally.
• A highly organized individual with excellent time management skills and thorough approach to work, production of high quality site plans, illustrative materials, construction documents, and other project related documents for both public and private clients.
• Have project management experience or is inspired to advance to project management level by developing skills of coordinating and collaborating with clients, consultants, contractors and supervising internal team members. Gain experience in leading client presentation and managing client and stakeholder relationships.
• A thorough knowledge of design process, technical detailing and construction documentation, construction administration, grading, horticulture and planting design
• Proficiency in AutoCAD, Adobe Creative Suite and Microsoft Office. Revit, Rhino, V-RAY, SketchUp, Grasshopper preferred.
• Strong speaking and written communication skills
• Basic understanding of arid region plant materials.
• LA Licensure or pursuing registration

Please submit a cover letter describing your work experience, design philosophy and traits that make you an excellent candidate for this position, a resume and portfolio in PDF format to: studio@colwellshelor.com
