

DESIRE AN OPPORTUNITY TO MAKE A DIFFERENCE?

We are looking for landscape architects / designers who are passionate about creating resilient, sustainable spaces that are at home in the Sonoran desert. Native plants are our thing.

Full-time or part-time or something in between. Hours can be flexible. Registration not required. Ideal candidates will want to manage all facets of their projects and will be happy putting together a full set of construction documents.

Required skills: AutoCAD proficiency. Helpful, friendly disposition.

You will not be working a rut ever deeper here. You will be part of a collaborative team. Our projects are varied and require the candidate to be flexible and interested in a challenging learning environment.

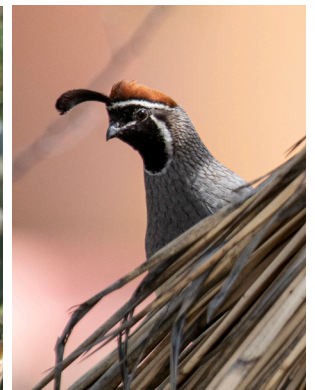

Salary depends on experience.

INTERESTED IN TALKING ABOUT OPPORTUNITIES AT WILDER?

Please forward your resume, samples of your work (pdf format), and a letter of interest to info@wilderla.com. Please address the following three questions in your letter:

- What types of projects do you most like to work on?
- What are your key strengths / skills that you will contribute to the Wilder Team?
- What are you looking for from an employer?

Wilder Landscape Architects (Wilder) is a landscape design firm located in Tucson Arizona. The firm was founded in 2016. Wilder believes that our built landscapes can be more than pretty. The landscapes we design are attractive to and functional for people, make a positive impact on other species (butterflies, birds, or other wildlife), aid in infiltration of stormwater, and are totally at home in the Sonoran Desert.

PASSIONATE | LOCAL | EXPERIENCED | CREATIVE
Resilient design that benefits both community and nature
