

LANDMARK  
DESIGN

## Landscape Architect (5-10 Years)

**Landmark Design** is a group of leaders, creative thinkers, and advocates for the sustainable and equitable transformation of our built environment. We are an award-winning landscape architecture firm with a rich legacy and diverse resume in landscape architecture, urban planning and design, and community engagement. Our staff are passionate, intentional, and proud of what we do, and most importantly we have fun doing it! Please visit our website at [www.ldi-ut.com](http://www.ldi-ut.com) to see some of our outstanding projects and to get a feel for our company culture.

We seek for a passionate, self-motivated, and well-rounded candidate with the right combination of personal, professional, technical, and communication skills to join our team. The successful candidate will collaborate with our experienced staff and manage design projects from sketch to construction in the creation of vibrant parks, plazas, streetscapes, and more. They will also engage with the public regularly through community workshops, online platforms, and other events. The ideal candidate will be committed to the practice of landscape architecture but also willing to explore the edges of the profession.

### Skills Required

We are seeking candidates who can actively contribute to our collaborative design process, and proactively take advantage of opportunities to develop new skills. Candidates must demonstrate strong design and communication skills, with a solid understanding of landscape architecture - from planning and conceptual design through construction document preparation. Interest and skills in community planning and urban design are a definite benefit. Skills in the following are essential:

- Five or more years professional experience in landscape architecture and design
- A professional degree in Landscape Architecture from an accredited institution
- Excellent project management skills, including the ability to manage multiple projects simultaneously and maintain strong client relationships
- Proficiency in AutoCAD and construction documentation, including planting and irrigation design (LandFX)
- Proficiency in graphic production using Adobe Creative Suite, Sketchup, and other software
- Experience overseeing design implementation through construction administration
- Experience with public presentations and community workshops
- Excellent research, writing and organizational skills
- Professional licensure or eligibility for licensure is preferred
- Interest in community planning and urban design is a bonus, including GIS skills and/or AICP certification

### Compensation

At Landmark Design, we value dedication and offer rewarding opportunities for growth, involvement in great projects, and attractive benefits. We offer competitive salaries based on experience and qualifications, and a robust benefits package including health insurance, paid vacation, holidays and sick leave, contributions to retirement programs, and support for professional licensing and certifications. We also offer a flexible hybrid work environment and support for work-life balance.

If interested, please submit a portfolio including your resume, a maximum of five (5) work samples, and a personal statement to Sam Taylor at [samt@ldi-ut.com](mailto:samt@ldi-ut.com). Please put in the subject line of your email: "Landscape Architect Position."
